Intention

(This is your long-term vision, set in the present tense. You might choose to describe what you want to be doing and how you want to be received: e.g. “I write bestselling novels that inspire and delight my readers.”)

TARGETS

(These are the big steps you’ll need to take to reach your intention. Make them specific and time-bound: e.g. “Get an agent by September” or “Finish my novel by my birthday.”)
